

ORON

орон

Mongolian noun

place; dwelling

Premium yurts for
Australia & New Zealand

THE EXPERIENCE BEHIND ORON

Practical experience for your project.

Yurt in the Dirt grew from our own journey into off-grid living and a different way of life.

We spent over four years living off-grid as a family in an 8-metre yurt. We experienced the freedom of building something with our own hands, alongside the practical realities of making it a comfortable home.

I started Yurt in the Dirt to make alternative accommodation simpler and more affordable for Aussies and Kiwis wanting to create something special on their land.

Since then, we've helped 150+ clients create off-grid retreats, studios, and alternative accommodation across Australia and New Zealand.

That experience still shapes how we work: straightforward advice, carefully considered products and practical support from the first conversation through to assembly. ORON brings those foundations to a more refined yurt, with the warmth, comfort and character to make the space your own.

Ryan Smith

Founder, Yurt in the Dirt / Denmark, Western Australia

MEET ORON

Take a closer look at ORON.

The all-timber frame, natural hemp cotton liner, and proper glass windows and large clear skylight give ORON its character.

Watch the overview to get a feel for the space, then explore the photo gallery for a closer look at the details.

What would you do with an ORON?

An off-grid retreat

A place to spend longer on your land. For many of our clients, it is a place to live or begin their homesteading journey.

Glamping accommodation

Give guests a reason to choose your property with a stay in an ORON. Add a comfortable bed, a bathroom and a deck to create your own guest experience.

Yoga & wellness

Keep the yurt open for movement, with room to spread out mats and equipment. Add storage around the walls to keep the floor clear.

A creative space

A music room, home office, workout room or kids' play area. Keep it dedicated to one use, or make it flexible enough to share between work, hobbies and family time.

SIZES

Find your size.

ORON comes in six sizes from 5 to 10 metres, with larger sizes available by enquiry.

5 m

19.6 m²

6 m

28.3 m²

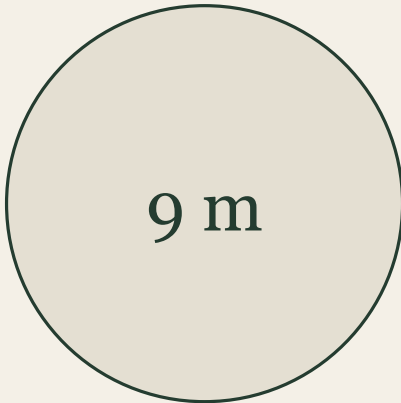

7 m

38.5 m²

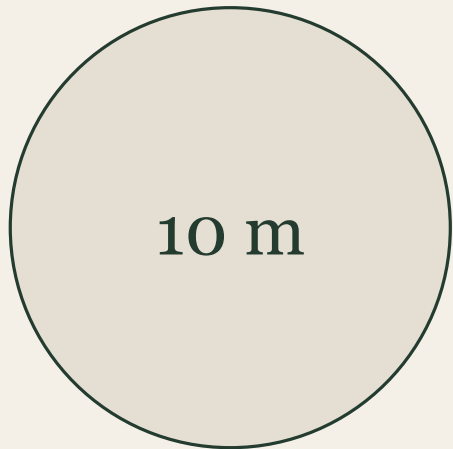

8 m

50.3 m²

9 m

63.6 m²

10 m

78.5 m²

Nominal circular floor area, before partitions and fit-out

Start with what needs to fit: a bed and sitting area, an open studio, or separate rooms. The furnished example over the page shows an 8-metre layout with an internal bathroom.

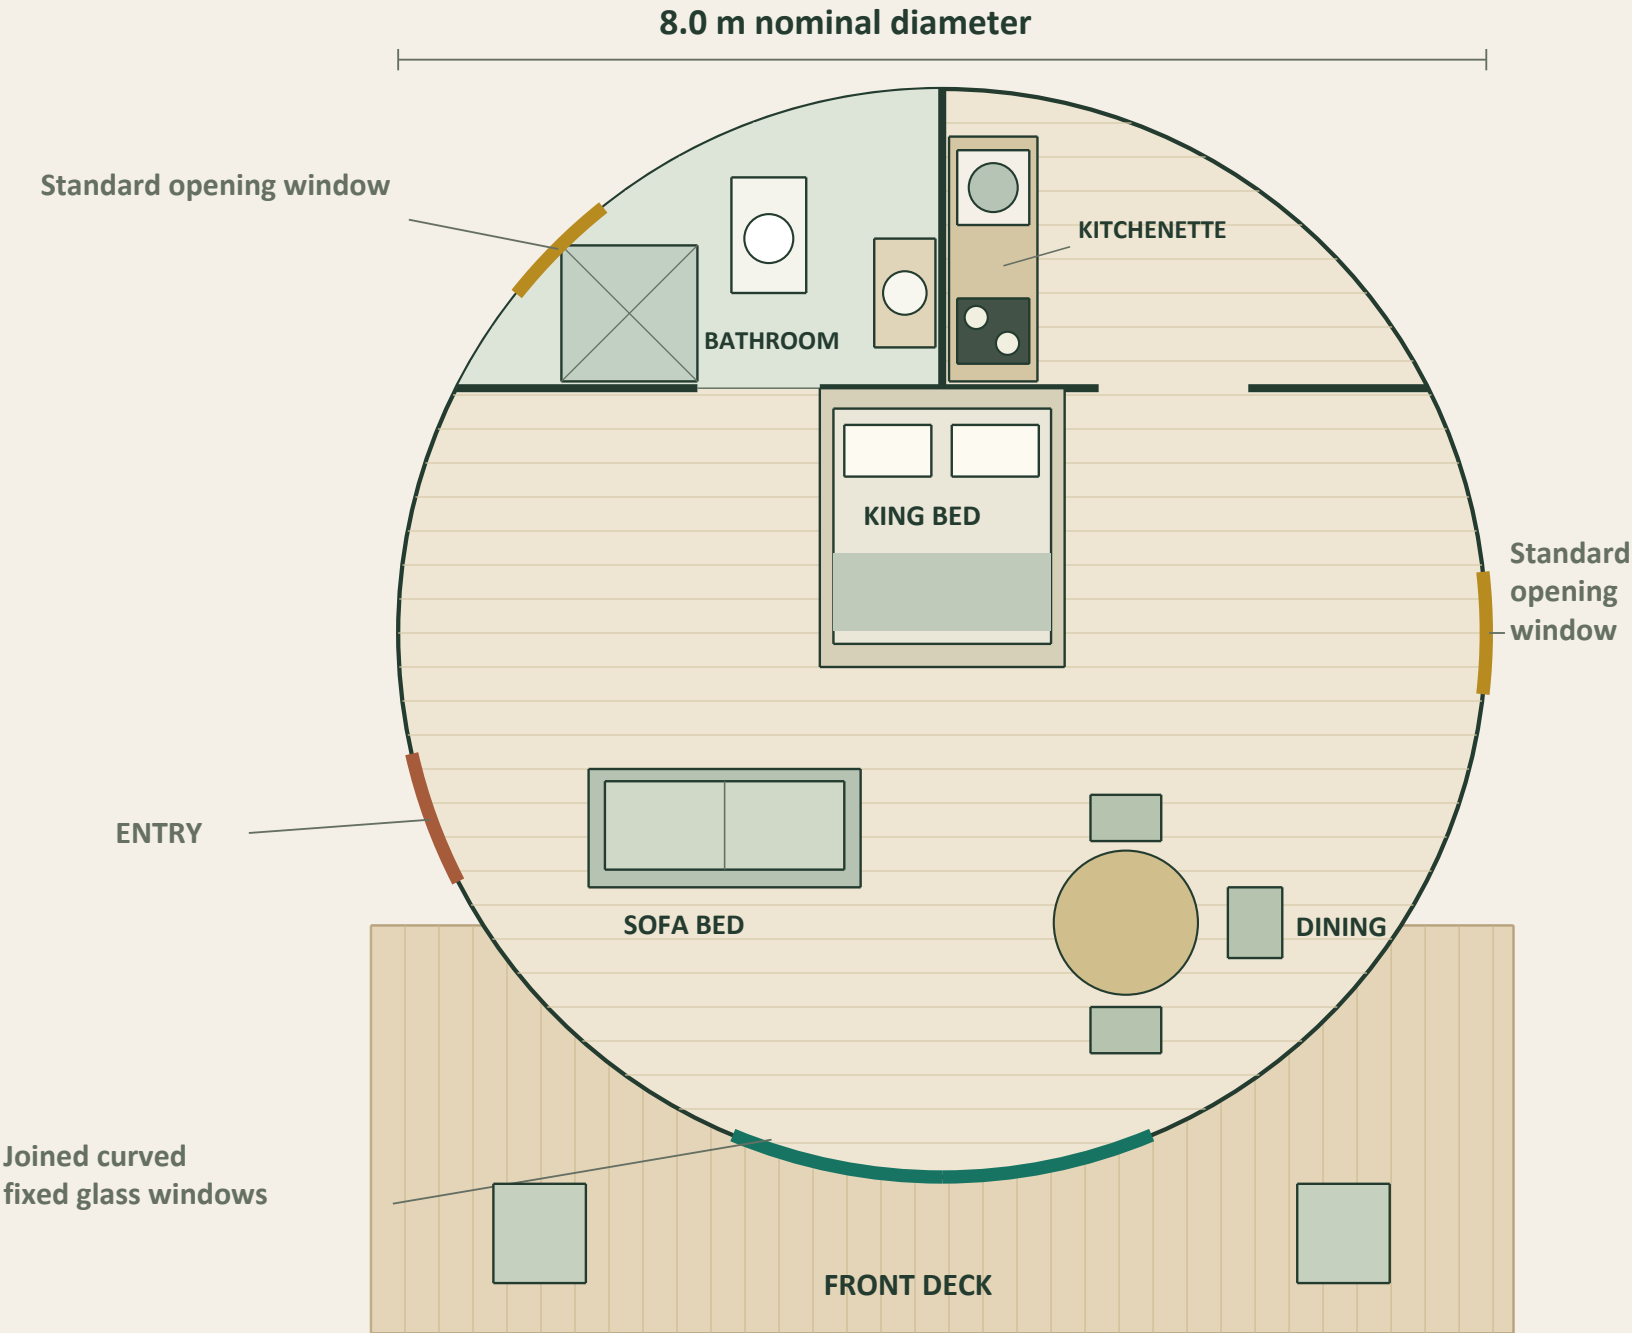

Going bigger? Ask us about 12 m and larger ORONs.

GLAMPING ACCOMMODATION EXAMPLE

8-metre ORON floor plan

A king bed, internal bathroom, kitchenette and living space, with a deck out front.

Indicative layout, concept only.

YOUR WINDOW AND DOOR POSITIONS

Use the clock to show us your layout.

01 / Start with the entrance

Think of the yurt as a clock, with 12 at the top and the entrance at 6 o'clock.

02 / Choose your positions

Tell us where each opening should sit: 3 o'clock, 9 o'clock or 10:30, for example.

03 / Choose your window types

This example has two curved fixed glass windows joined, centred on 12, and opening windows at 3 and 9.

04 / Send us your marked plan

Mark up a plan or send a sketch. We'll work through the positions and selections with you and send you as many revisions as you like.

DOORS

Make a bold entrance.

7 door choices now available in hardwood, as shown.

Single and double doors share the same overall opening of 900 mm (double doors are 450 mm each side).

WINDOWS

Plan for airflow and your view.

Now available in hardwood, as shown.

01 / Opening window

900 mm wide.

Opening upper sash, fixed lower glass.

02 / Curved fixed glass

1,570 mm wide.

Fixed glazing for a broad outlook.

Curved windows can be joined to create panoramic views.

EXTERIOR

Colours inspired by nature.

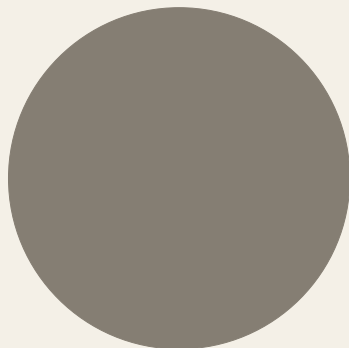

Choose any colour combination for your roof and walls.

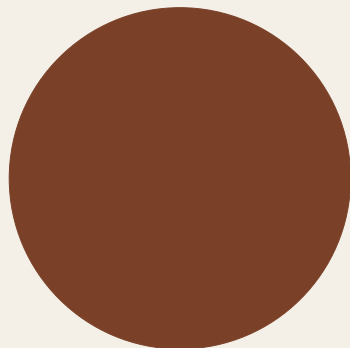

Sand Dune

Bushland

Riverstone

Red Ochre

Deepwater

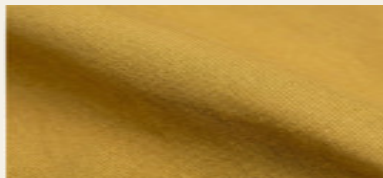

INTERIOR

Make the space your own.

Natural hemp cotton liner. Nine colour choices.

CONSTRUCTION

See how ORON comes together.

Timber, natural fibres and protective outer layers.

Skylight + exterior covers

Central skylight, roof membrane and side cover.

Wool-felt insulation

Wool felt beneath the exterior covers.

Reflective air-cell insulation available as an option.

Timber frame + openings

Radial rafters, centre ring and lattice walls, with timber-framed doors and windows.

Decking plans for every size

Ask us for decking plans matched to your yurt size.

We can provide plenty of info to help you or your builder prepare your deck ready for the yurt.

A REAL ORON BUILD

See the structure come together.

The Glover family's 7-metre ORON.

The Glovers chose an ORON to create guest accommodation on their property. Building in stages meant they could take on the project alongside family life.

Friends and family helped bring the structure together. The video follows the build and their plans for the fit-out, an outdoor bath and a fire pit.

SUPPLY, SUPPORT AND CONSTRUCTION

Your ORON. Your project.

Your ORON kit

Timber frame, matte exterior cover, wool-felt insulation, hemp cotton liner and skylight. Add additional doors and windows if you choose.

Our practical support

Size-specific decking plans, assembly videos, technical information and practical support before and during your build.

Your site and fit-out

Arrange the deck or foundation, flooring, internal rooms, services and local labour. These sit outside the ORON kit.

Before you order

We'll confirm your configuration, floor plan and colour choices before finalising your order paperwork and deposit payment. Balance is due prior to shipping.

YOUR NEXT STEP

Discuss your project.

Tell us the size you're considering, where it's going and what you'd like to use it for. We'll help you settle the options and put a quote together.
